MyCOR Basic
Is your own little piece of our secure private cloud. You can save, manage and access mobiliy, any of your personal files, never having to worry again about where you put them or what you called them. It's all about what something is not where it is.

MyCOR Pro
Is an enhanced version of Basic. You get additional secure private cloud storage as well as reporting. You also have access to 2 hours of free professional service hours that will allow you to even further customize your MyCOR Pro experience.
